

EPPO + OLAF PACKAGE – BajteBrothers / MARA

Date: 04 October 2026

1. EPPO Crime Report Summary (English – ready to paste)

Subject: Cross-border illegal import and dumping of waste Italy–Croatia (Gospić / Tipos Resurs) – possible offences against the financial interests of the EU and organised crime

Dear Sir/Madam,

I hereby report suspicions of cross-border criminal offences related to the illegal import and dumping of waste from Italy into the Republic of Croatia (location Bilajska 50, Gospić – Tipos Resurs d.o.o. and related persons), in the period 2022–2024.

Key facts (to be updated with documents once Freedom of Information replies arrive):

1. According to investigative documentation, at least **12,338 tonnes** of waste arrived from Italy in **576 shipments** destined for Gospić in the said period.
2. There are indications of misdeclaration of waste (use of Annex VII / green list instead of the notification procedure) and of inconsistency between declared KBO/EWC codes and the actual composition (including hazardous substances and PFAS compounds).
3. One concrete shipment was stopped at the **Pasjak** border crossing; a laboratory analysis was carried out showing a mixture of plastics, metals and elevated concentrations of heavy metals.
4. There are indications of a possible conflict of interest in the remediation phase (companies that previously did business with Tipos Resurs are now participating in public tenders for the removal of the same waste).
5. According to public statements, the Croatian Security and Intelligence Agency (SOA) had information as early as 2022.

Possible offences falling under EPPO competence: - Cross-border fraud / falsification of customs and waste documentation - Organised crime with a cross-border dimension - Possible damage to the financial interests of the EU (if VAT fraud, misuse of funds or similar is established)

Annexes (to be added when available): - Replies to Freedom of Information requests (Fund, Inspectorate/Customs, Ministry, Parliament) - Laboratory report of the Pasjak shipment - e-ONTO / KBO data - Tipos Resurs permits over time - Mass balance analysis (MARA)

I kindly request that this report be assessed in accordance with the competence of the EPPO.

2. Short English e-mail template for MEPs / European Parliament

Subject: Cross-border waste trafficking Italy–Croatia (Gospić) – request for attention / possible EPPO relevance

Dear [Name of MEP],

I am writing to draw your attention to a large-scale cross-border case of illegal waste import and dumping from Italy to Croatia (Gospić, Bilajska 50 – Tipos Resurs and related companies), involving at least 12,338 tonnes in 576 shipments between 2022 and 2024.

Key concerns include: - Possible misdeclaration of waste (Annex VII / green list vs. actual hazardous content) - Laboratory findings from a stopped shipment at the Pasjak border crossing - Indications of conflict of interest in

the ongoing public remediation contracts - Information that the Croatian intelligence service (SOA) was aware of the problem as early as 2022

I have submitted / am preparing a formal report to the European Public Prosecutor's Office (EPPO) and will also notify OLAF.

I would be grateful if you could take note of this case and, if appropriate, raise it in the relevant parliamentary committees (Environment, Civil Liberties, Budgetary Control).

I remain at your disposal for any additional information or documents.

Yours sincerely,
